

Comparable Database for Domestic Violence

ClientTrack offers data security, simplified compliance, end-to-end encryption, role-based access, and powerful reporting tools in one secure and easy-to-use application.

ClientTrack® Case Management Platform

With ClientTrack's intuitive intake workflows designed to capture data required for standard HUD reports like CAPER and APR, combined with easy-to-use reporting tools, compliance and accountability are easier than ever. ClientTrack helps you free up time from data input and focus on what matters most—helping people recover and heal.

ClientTrack can serve as a resource for housing management, case management, closed-loop service referrals, and more. Additionally, ClientTrack provides a crisis needs assessment that allows your organization to more readily identify and prioritize the needs of the people you serve, as well as the ability to document crisis and hotline calls.

Security and Encryption

ClientTrack's **robust security model** features end-to-end encryption. Anonymous client data entry ensures security, privacy, and confidentiality where it matters most.

Compliance Reports

ClientTrack offers **standard reports** as required by HUD, VA, and other standard HHS reports, including VOCA, ESG, APR, CAPER, etc. We help our partners maintain compliance with all relevant government regulations.

All-In-One Solution

Take advantage of our comparable database to free up time and resources through our **single solution** that manages hotline calls, intakes, assessments, protective order and court advocacy tracking, group services, referrals, and more, so time spent on data entry and minutiae can be reinvested in the people you serve.

Simple Interface and Workflow

ClientTrack's **intuitive design** makes it easy to navigate through the system, find the functionality you need, and train others to gather inputs, make assessments, and run reports.

Powerful Ad Hoc Reporting

In addition to standard reports, ClientTrack's Data Explorer enables you to **build ad hoc reports** to query whatever data you need. Showcase your outcomes with reports, graphs, and charts to help with fundraising in your community.

Data Migration

Eccovia boasts a lengthy history of successfully migrating legacy data from our partners' databases into a single, secure ClientTrack database.

Extensive Outcomes Tracking

Track client outcomes and the impact of those outcomes across multiple services.
